I, II, & III John

Jude

Revelation

Unfortunately, prophecy has been
misunderstood and twisted.

I. What is prophecy?

A. Vines: Speaking the mind and counsel of God.

To declare what cannot be known by natural means.

B. Grudem: Telling what God has spontaneously brought to mind.

C. Question: Is prophecy the word of the Lord?
Logos is the fullness of God translated or expressed to us.

Rhema is a single spoken or written word.
Ephesians 6 and Matthew 4

II. Why should we desire the gift of prophecy?

A. Prophecy builds up the body of Christ.

B. Prophecy can be tested or discerned.

C. Prophecy brings glory to God.

III. What is at stake with prophecy?

A. If someone unintentionally mishandles the counsel of God: minimize the damage, restore what is damaged, and encourage growth.

B. If someone is false, that needs to be discerned, exposed and rooted out.

III. What is at stake with prophecy?

C. If someone truly hears:

Believers are built up and turned loose.

Unbelievers come under Holy Spirit conviction.

God receives glory that is due Him, and Him alone.

If what you hear is prophecy
it will build up, encourage,
or provide comfort.
